

Intelera to Feature Enterprise Imaging and Informatics Suite at Oceania's RANZCR 2022, Including New Innovative Cloud Offering

Company to display latest products and services capabilities at RANZCR 2022, introducing new enterprise offerings for hospitals and healthcare systems

Raleigh, NC and Montreal – October 27, 2022 – [Intelera Medical Systems™](#), a global leader in medical image management solutions, will showcase its expanded portfolio of Enterprise Imaging capabilities at the [Royal Australian and New Zealand College of Radiologists \(RANZCR\) annual meeting](#) in Adelaide, Australia from October 27-30, 2022. The RANZCR show, which is hosting its first event in over two years due to the COVID pandemic, is focused on Clinical Radiology and Radiation Oncology, and Intelera is the presenting sponsor of the show.

“We’re pleased to partner with Intelera for our very first in-person annual scientific meeting after almost three years. The RANZCR annual scientific meeting is an inspiring showcase of the latest medical technology advancements and innovations, bringing together leading industry experts in clinical radiology and radiation oncology and the wider healthcare community. We thank our presenting partner for their continued support,” said Clin A/Prof Sanjay Jeganathan, RANZCR President.

Intelera’s full suite of enterprise offerings, the [Enterprise Imaging and Informatics Suite](#), was designed to offer a portfolio of medical image management solutions to healthcare providers. The innovative products within the suite empower hospitals and healthcare systems to seamlessly manage and share patient data, while experiencing the speed, scalability and simplicity needed to improve performance and improve patient outcomes.

This year at RANZCR, Intelera will highlight one of the newest solutions part of the Enterprise Imaging and Informatics Suite - Intelera Cloud. The product offers scalable and dynamic benefits within a cloud-native infrastructure without sacrificing speed or performance. Intelera Cloud will introduce efficiencies into any healthcare system, and will allow healthcare providers to securely store data in an environment that’s tailored to the organization’s needs.

“We could not be more excited to return to RANZCR this year and highlight our latest technology solutions aimed to help manage vital patient data across the enterprise,” said [Morris Panner, President of Intelera](#). “We are especially excited to show how our new Intelera Cloud solution is the pinnacle of Cloud technology that will help accelerate next-level patient care. I am looking forward to being onsite and sharing facetime with the industry’s leading providers.”

Panner will also present live during RANZCR, discussing the importance of interoperability between image exchange vendors with the Clinical Radiology Radiation Oncology Research forum on Friday, October 28th from 3:45-5:15 p.m. ACST.
