

Intelrad Names Healthcare Technology Veteran Jordan Bazinsky as CEO, Ushering in New Era for the Global Company

The organization's future course will be guided by the new executive who, for over 20 years, has scaled transformational healthcare companies while driving next-level innovation for global teams.

Raleigh, NC and Boston, MA – May 23rd, 2023 – [Intelrad Medical Systems](#)™, a leading global provider of enterprise medical imaging solutions, announced the retirement of CEO Mike Lipps, who served the company for nearly three years as part of a 20-plus year software industry career, and is handing the organization's global team and mission over to Mr. Jordan Bazinsky as the new Chief Executive Officer.

"We are grateful for Mike's contributions and leadership that helped shape Intelrad into the medical imaging management leader it is today," said JB Brian, Partner at Hg and Intelrad Chairman. "Jordan's healthcare experience is coming at a crucial time. His innate ability to efficiently run and significantly scale businesses within this space is invaluable, and we are confident he is the right leader to steer the organization to new heights."

Bazinsky is recognized for driving breakthrough growth across enterprise healthcare organizations, and joins Intelrad following over 20 years of relevant experience, most recently serving in executive leadership positions at Cotiviti and Verisk Health. His track record for leveraging technology to improve outcomes for patients and providers brings immediate benefit to Intelrad. Motivated by Intelrad's mission to improve global human health, Bazinsky's focus is on the responsibility the organization has to enhance outcomes in healthcare and bring value to the organization's global client base.

"I've been entrusted with ensuring that Intelrad's vision aligns with our clients' most critical needs in supporting their unique healthcare journeys," said Jordan Bazinsky, CEO, Intelrad. "I am intimately tied to this industry, and value the work that has been done before me. Now, we have an opportunity to look ahead, evaluate our position and determine how we can make the biggest impact on the lives of healthcare providers and the patients they serve."

More than two decades ago, Intelrad was founded to democratize access to medical imaging software solutions. It has since grown to serve nearly 2,500 clients worldwide, and has acquired seven world-class companies since December 2020, allowing the organization to enhance its technology and product offerings while growing its global team.
