

Intelera to Premiere Expanded Offerings at UKIO 2023, Featuring Enterprise Solutions Designed to Enhance Patient Care.

Company to display latest product advancements made to InSight PACS and introduce the capabilities of IntelPACS and Clario SmartWorklist in Liverpool 5-7 June.

Intelera Medical Systems™, a leading global provider of enterprise medical imaging solutions, announced it will showcase its enhanced enterprise offerings in Liverpool during the 2023 UK Imaging and Oncology (UKIO) annual meeting 5-7 June. The Intelera team will be on hand to demonstrate their UK born and bred InSight PACS, designed and developed for the UK market, alongside their IntelPACS system, widely utilised by the teleradiology and private market, and their highly acclaimed workflow orchestration tool, Clario SmartWorklist. Demonstrations of these and other products within the Enterprise Imaging and Informatics Suite will be available on Stand A1.

Core components of Intelera's InSight PACS, IntelPACS and Clario SmartWorklist include:

InSight PACS:

- All features and workflows created exclusively for the UK
- Advanced sharing and regional multiple disciplinary team support
- Home reporting and tele-radiology
- All images and reports immediately at any location
- Multiphase Examination support, including 4D, Dual Echo and Diffusion Weighted Imaging
- Advanced Image Registration for anatomical positioning
- Integrated with HIS/EPR Solutions, including a Zero Footprint Viewer
- Seamless integration with AI algorithms

IntelPACS:

- Designed to bring simplicity to complex imaging environments
- Provides hospitals, imaging centres and teleradiology organisations with a robust platform for storing, retrieving and routing medical images
- Combining secure communications and compression technology, our PACS software ensures radiology image and patient data integrity, while providing high availability of electronic images from any location

Clario SmartWorklist:

- A cloud-based, vendor-neutral worklist that provides a single source for managing all imaging workflow and patient data across the enterprise
- Ensures the right provider is presented with the right case at the right time, regardless of the complexity or disparate nature of the environment

Intelera's newly appointed UK Managing Director, Arron Edwards, commented, "We are excited to once again be meeting with our peers at UKIO, this year showcasing our new branding and proudly promoting our inclusion in the industry-leading portfolio of Intelera. Last UKIO, we stated we were powered by Intelera - now we are empowered by them! With Intelera backing our UK team, we're growing in strength, numbers, and expertise. We are

one global team offering a vast array of products for the UK market and beyond to benefit our clients and ultimately their patients."

A drop-in clinic will also be offered for existing clients on Wednesday the 7th June at the show, where clients can spend time with their training and development teams, ask specific questions, suggest enhancement requests or see what their solution has in store for the year ahead. Newly appointed UK Managing Director, Arron Edwards, and InteleraD President, Morris Panner, will be attending alongside the rest of the InteleraD team, and will be available for meetings throughout the event.

UKIO meeting requests can be booked by emailing liam.neill@intelerad.com, or by visiting intelerad.com/ukio-2023.
