

Winchester Radiologists Selects Intelerad to Provide Full Range of nuage™ Cloud Managed Services

Intelerad's cloud-based imaging platform to serve as the backbone for Winchester's high-quality care delivery objectives

Montreal, Canada – November 11, 2019 – Intelerad Medical Systems™, a leader in enterprise imaging workflow solutions, today announced that Winchester Radiologists, a Northern Virginia-based diagnostic imaging and treatment services provider, has selected Intelerad's [nuage™ Cloud Managed Services](#) to support its core mission of providing efficient, accurate, high-quality care to its patients.

Intelerad's nuage Cloud Managed Services seamlessly supports business growth and expansion, assuring ongoing business agility while complying with healthcare's high security and high-availability requirements.

"By selecting Intelerad's full range of cloud managed services, we are equipping our radiologists with a highly scalable and robust solution that can support our clinical, physician, operational, and patient needs," said Erick Peterson, IT Director for Winchester Radiologists."

"Faced with an ever-increasing dependency on IT, healthcare providers are increasingly turning to the security and scalability offered by cloud-based solutions," said Christian Bazinet, Chief Operating Officer, Intelerad Medical Systems. "We are confident that by leveraging our expanded nuage offering, Winchester Radiologists will be able to integrate its various reading systems and streamline the workflow so their radiologists can focus on providing the high-quality care they have been known to deliver for over forty years."
