

IntelConnect™

Powerful, zero-footprint, universal access

IntelConnect™ is a powerful clinical portal giving physicians easy access to patient orders, images, and reports, anywhere, anytime. From a highly performant enterprise viewer to tailored specialist worklists, IntelConnect™ provides radiology groups and health systems with all the tools they need to connect with referring physicians and share vital patient information in real-time.

IntelConnect™ Enterprise Viewer is a zero-footprint solution available with IntelPACS™ that can be integrated into any PACS system, allowing physicians to access patient images, reports, and critical notifications from the desktop or a mobile device, improving speed and efficiency. IntelConnect™ includes a collaboration suite that provides real-time communication between multispecialty care teams, improving patient outcomes.

Key Benefits of IntelConnect™ and IntelConnect™ Enterprise Viewer

Access patient orders, exams, and reports anywhere, anytime with zero-footprint.

Leverage tailored worklists to facilitate patient-centric, multi-specialty care teams.

Improve patient care by reducing turnaround times, delivering results instantly to referrers.

Key Features of IntelConnect™ and IntelConnect™ Enterprise Viewer

- › Enterprise-wide, zero-footprint access to patients' images, orders, and reports
- › Powerful imaging tools and diagnostic-grade images
- › Customized workflows between radiologists, specialists, and referrers
